

Shavuot Sharing

Why is it that students can tell us so much about Passover but have a difficult time explaining the connection between Passover and Shavuot? As Jewish professionals, we have the opportunity to teach these holidays as part of the same whole. Judaism is based on the notion that our freedom is linked with our wandering in the desert and with our responsibility to each other and to God.

We have a few resources on Shavuot to highlight that you can find in the Tartak Learning Center.
